

Scrap Paper Present Bows

Items you'll need:

- Wrapping paper, magazine, comic book or any other form of scrap paper
- Scissors
- Glue
- A ruler
- A pencil

1. Take the paper, and mark out three 9inch x 1inch strips.
2. Mark out three 8inch x 1inch strips.
3. Mark out two 7inch x 1inch strips.
4. Mark out one 5.5inch x 1inch strip.
5. Cut the strips using your scissors. You should have a total of nine strips.
6. Take the strips, and twist them into a figure of eight shape. Staple then into place at the centre. Do this for all the strips, except the 5.5 inch strip.
7. Lay the 9inch strips in a cross shape over each other, and glue into place. Overlap the 8inch strips over these, by filling in the gaps. Do the same for the 7inch strips.
8. Roll the 5.5inch strip into a cylindrical shape and place it at the centre of the bow. Glue into place.
