

Detergent Bottle Phone Holder

Items you'll need:

- An empty detergent bottle
- Scissors or a craft knife,
- A pencil
- Some sand paper

1. Remove the neck of the bottle. This might be tricky so mind your fingers.
2. Draw an outline of your phone charger, a bit bigger than it is, onto the back of the bottle, about a third of the way down. Follow our template, which is included in an attachment on our website.)
3. Draw a U shape on the front of the bottle. Then cut this out including the sides.
4. Cut out the outline of the phone charger on the back. You will need to make a slit but you can staple this.
5. Finally, be creative and decorate your holder any way you want.
