

Sock Fish:

Items you'll need:

- A sock,
- Pillow fluff,
- A needle,
- Wool,
- Buttons,
- Felt
- A glue gun

1. Stuff the body of the sock generously with the pillow fluff, leaving the end of the sock empty.
2. Using the needle and some wool, sew the sock closed by bunching it into sections.
3. Decorate the sock using buttons for eyes and wool for the mouth. You can be creative here and add any other things you might like.
4. Lastly, cut out some fins from the felt and glue these onto the body of the sock fish.
